

Masami Sensei's talk

At Video Prayer Gathering on May 23, 2020

Hello everyone. I am deeply moved by your enthusiasm in connecting with us through the internet, to the point I cannot stop tears. I attach so much value to your existence which you will prove from now on. The world is presently panicked by the spread of the coronavirus, but this is just the entrance. Many more things will take place in the world, but the existence of you, people who came into contact with Goi Sensei's teachings and form the Divine Spark *IN* will serve as a great rescue to the world. Just praying "*May peace prevail on earth*" will contribute tremendously to the people who do not understand the Divine Spark *IN* and do not form it.

All human beings in the world are bound by their past karma, and are living this present lifetime in pain, sorrow, fear, and worry that derive from their own subconscious. They find their future totally unpredictable with the threats of bankruptcy, loss of the sense of value of their own existence, food shortage, and many other difficulties. Such an age is drawing near.

In this circumstance, the Divine Spark *IN* formed by you is widely spreading in the world. It is never a coincidence that you are here right now. When you first came to Byakko, I know that many of you had many difficulties; you blamed yourselves for your past mistakes, or you thought you were incapable and felt inferior complex by comparing yourselves with others. However, while continuing to practice *fading-away* and the Prayer for World Peace, your own latent divinity rapidly began revealing itself.

I would, therefore, like to emphasize to you the necessity of constantly respecting yourself, having confidence in yourself, and acknowledging your precious divine mission. Doing so is what is most important. In other words, your past has vanished and does not exist any longer. Please do not grab hold of your past, because now is the time for your Divine Spark *IN* to spread all across the world. Divinities utilize the energy of the *IN* from each of the *IN* that you form. It is not possible to utilize this power by a 100%; doing so means you will shift to the other world. The percentage varies from 0.0 some percent to 10. some percent, which is in my case. However, even with the loss of that much energy, by forming the *IN*, I find my physical body becoming increasingly healthy and energetic.

The *IN* you form accords precisely with the universal law. The circle, triangle, square, and various angles drawn by the hand movements are the basics of the *IN*. When you form the *IN* many times, in the beginning, you form it seriously and carefully. But while continuing to form it and even after you have lost the concentration and power you initially had, energy

continues to be generated from the circular, triangular, and square movements. And this energy produced by the *IN* is conveyed to necessary places in necessary countries of the world. This is the difference from the prayers until now.

The prayers until now required a long, long history for a person until achieving a splendid personality and then awakening to his or her inner divinity. However, the Divine Spark *IN* exerts an enormous influence even to a newcomer.

What I want to emphasize to you is to acknowledge your precious divine mission as you continue forming the Divine Spark *IN*. By forming the *IN* in this way, we can extinguish egoism, greed and other barbaric karmic thoughts that make people think, “*I don’t care how others are if only I am happy...*” In your household, you may sometimes find your family members express complaint, dissatisfaction, anger, and sorrow. At such instances, just by silently continuing to form the *IN*, the energy generated by the *IN* extinguishes all the negative waves and brings about a harmonized environment. The Divine Spark *IN* eradicates the confrontation and separation in all countries. It also eradicates the walls between men and women, between talented people and people who are not, between the wealthy and the poor, and between people with different cultures and ethnicity.

Therefore, please try to find every spare time to form the *IN*. Also, while riding a train or walking down a street, please discharge your thought energy to the people you see saying in your heart, “*Divine spark, divine spark!*” These people who receive your divine energy will naturally change, and this will ultimately change the society. This is why your existence will be most acutely needed from now on.

After repeating rebirths countless times, the time has come for you to represent your own country and jointly form the *IN*. You are truly irreplaceable existences whom Goi Sensei has guided with the utmost care. Please have confidence in you own accomplished divinity and make use of it for the good of one, two, or three persons in your community.

By largely manifesting the power of your own divine spark, the world will be widely interconnected. This divine energy is able to extinguish even the coronavirus. How precious each and every one of the *IN* that you form is! An enormous influence will be manifested when the Universal God and the Great Assembly of Light unite with our *IN*. This will shortly begin from next year. Therefore, please work hard to convey the *IN* to your friends and even to children. As they learn and practice it, their inner divinity will naturally be drawn forth, expelling all the negative consciousness such as, *no way, impossible, I’m poor, I’m discriminated, I’m segregated*, and so on. It is our mission to let humanity do away with all

their sense of separation. I would like you to spread the *IN* for this end as well.

I have no words to express my deep appreciation for your precious existence. How valuable your existence is! How devotedly you will be contributing to humanity! In view of these, I have nothing but gratitude to all of you. Your life is guaranteed. Your good health is also guaranteed. Please feel assured and contribute to the good of others with the spirit of altruism. Please give love to others by using good words such as, "*Thank you.*" Let us spread "*thank you*" more and more in the society. The world will change the instant you say, "*Thank you. You are such a wonderful person.*" Together, let us continue forming the Divine Spark *IN*.

Thank you very much.
